

CHANGE / REQUIREMENT

ARTICLE 110.2 (C)

(C) Emergency Procedures. Employees exposed to shock hazards and those employees responsible for taking action in case of emergency shall be trained in methods of release of victims from contact with exposed energized electrical conductors or circuit parts. Employees shall be regularly instructed in methods of first aid and emergency procedures, such as approved methods of resuscitation, if their duties warrant such training. Training of employees in approved methods of resuscitation, including cardiopulmonary resuscitation and automatic external defibrillator (AED) use shall be certified by the employer annually.

ARTICLE 110.2(D)(1)(d)

Tasks that are performed less often than once per year shall require retraining before the performance of the work practices involved.

ARTICLE 110.2(D)(1)(e)

Employees shall be trained to select an appropriate voltage-detector and shall demonstrate how to use a device to verify the absence of voltage, including interpreting indications provided by the device. The training shall include information that enables the employee to understand all limitations of each specific voltage-detector that may be used.

ARTICLE 110.2(D)(1)(f)

The employer shall determine, through regular supervision or through inspections conducted on at least an annual basis, that each employee is complying with the safety-related work practices required by this standard.

ARTICLE 110.2(D)(3)

Retraining. An employee shall receive additional training (or retraining) under any of the following conditions:

(a) If the supervision or annual inspections indicate that the employee is not complying with the safety-related work practices (b) If new technology, new types of equipment, or changes in procedures necessitate the use of safety-related work practices that are different from those which the employee would normally use, or (c) If he or she must employ safety related work practices that are not normally used during his or her regular job duties. **Retraining shall be performed at intervals not to exceed 3 years.**

ARTICLE 110.2(E)

Training Documentation. The employer shall document that each employee has received the training required by paragraph 110.2(D) of this section. This documentation shall be made when the employee demonstrates proficiency in the work practices involved and shall be maintained for the duration of the employee's employment. The documentation shall contain the content of the training, each employee's name, and dates of training. **Informational Note:** Employment records that indicate that an employee has received the required training are an acceptable means of meeting this requirement.

Our Guarantee

We at Facility Results offer practical, targeted courses on Electrical Safety, Electrical Maintenance, and Lockout/Tagout that capitalize on every minute spent in the classroom. Satisfaction Guaranteed.

Please provide full names of attendees so that completion badges can be ordered & presented upon completion of training.

OSHA 10 & 30 HOUR GENERAL INDUSTRY TRAINING COURSES

Electrical Safety in the Workplace
Based on OSHA 1910.147

OSHA 10 or 30 Hour General Industry Training Course OSHA 1910

DESCRIPTION

Based on the Occupational Safety and Health Administration's (OSHA) 1910 General Industry Regulation this course is intended to inform workers about the purpose of OSHA, and their rights to have a safe workplace. The course also raises a workers level of awareness about basic safety and health hazards that may be present in the workplace.

This course is comprised of several modules that must add up to a total of 10 or 30 hours classroom time. All trainees who successfully complete this training receive their OSHA 10 hour general industry outreach training card

DURATION

OSHA requires that training be spread over two days for 10 hour, and four days for 30 hour, with 7.5 hours maximum time spent training in one day. Monday – Friday, 7am – 6pm. A Review with Management will take place following the training where we will review the feedback that was noted during the class, speaker evaluation and cover critical areas of concern.

FORMAT

PowerPoint Presentation, Instructor Demonstrations, Open Discussion, One or Two Seasoned Trainers

AUDIENCE

Employees working in most factories and manufacturing operations, warehousing, healthcare, and service industries.

OBJECTIVE

This training program will provide the student with the information required to comply with the 29 CFR 1910 General Industry Training requirements.

TOPICS

Mandatory Topics:

- Introduction to OSHA
- Walking and Working Surfaces
- Exit Routes, Emergency Action Plans
- Fire Prevention and Protection
- Electrical
- Personal Protective Equipment
- Hazard Communication
- Machine Guarding
- Material Handling
- Safety and Health Program

Additional Topics for Building a Customized Course:

- Hazardous Materials
- Material Handling
- Machine Guarding
- Flammable and Combustible Liquids
- Spray Finishing
- Compressed Gases - Dipping and Coating Operations
- Permit-Required Confined-Space Entry
- Lockout/Tagout
- Fall Protection
- Intro to Industrial Hygiene
- Blood-Borne Pathogens
- Ergonomics
- Safety and Health Programs

TRAINING MATERIALS

- Seminar text handouts & related materials
- Select pages from 29CFR OSHA 1910 General Industry
- 2" x 2 " **Arc Flash Trained** hard hat badge
- Certificate badge of completion
